Sample Dataset for OCR and Data Extraction

This PDF is designed for OCR fallback use cases. The data below is presented in a clean tabular format so it can be extracted using OCR tools and converted into a DataFrame and CSV file.

Employee_ID	Name	Department	Experience_Years	Skill	Salary_INR
E001	Arun Kumar	Data Science	5	Python, ML	850000
E002	Meera Iyer	Analytics	4	SQL, Power BI	650000
E003	Ravi Sharma	Engineering	6	Python, APIs	900000
E004	Priya Verma	Data Science	3	Python, Statistics	600000
E005	Ankit Singh	ML Ops	5	Docker, Kubernetes	950000

Note: After OCR extraction, map the columns exactly as shown above to create a Pandas DataFrame and export it to CSV format.
